

BTW 3

PARKING AND REFERENCE POINTS BACKING UP USING MIRRORS

OBJECTIVE: The student will be able to successfully park the vehicle in perpendicular fashion and use angle parking. Student will successfully demonstrate backing the car safely using mirrors, looking over the shoulder and controlling the vehicle in a safe manner. The student will be able to utilize reference points to determine the placement of the vehicle.

TIPS FOR THE NEW DRIVER: DO NOT PARK IN A SPACE NEXT TO A POORLY PARKED VEHICLE. IT WILL BE HARDER FOR YOU TO MANEUVER AND YOU WILL NOT BE ABLE TO USE YOUR REFERENCE POINTS.

TECHNIQUE:

- Signal / Mirror / Over-the-shoulder / Go (SMOG)
- Understanding reference points for parking
- Front reference point
- Rear reference point
- Using the curb up front
- Parking up hill
- Parking down hill
- Parking parallel to a curb
- Backing up using mirrors
